

2022/2023

whoop-de-doo®

Pure, honest, perfect.

Whoop•de•doo is a brand of quality intimate products by leading Czech product designer **Anna Marešová**, who decided to create products that women would love and would indulge them.

She founded the renowned global brand **Whoop•de•doo** in 2013. The philosophy of this purely Czech niche brand is based on purity and precision of form, functionality, and design together with sustainable manufacturing.

All products have a velvety surface without visible seams and unnecessary protrusions, so they are safe, hygienic, and discreet. Development and manufacturing take place in the Czech Republic; the silicone comes from Germany, and the textiles from Switzerland.

‘I wanted to create a design that was clean, elegant, and functional. When you see it, you’re not at all embarrassed. Quite the contrary. You’ll want to try it right away. And then again and again. In short, you’ll fall in love with it.’

Venus Balls

Why the Whoop-de-doo Venus Balls?

Strengthening of the pelvic floor has a positive effect on women's sexual enjoyment and sexual health. The Venus Balls improve circulation in the vaginal muscles, increase libido, and awaken vaginal sensitivity. They also help prevent incontinence and can even completely cure milder cases. They're quiet, discrete, functional, anatomically shaped, and entirely hygienic.

How do they work?

The Whoop-de-doo Venus Balls work on the time-tested principle of a ball within a ball. With each movement, the inner balls generate a stimulating vibration that increases circulation in the vaginal wall and provides a pleasant massage, which can be controlled with either spontaneous or regular contractions that strengthen the pelvic floor. The sensation of the Venus Balls sliding out of the vagina during use is beneficial. With more intense movement, arousal and even orgasm can be achieved.

Who are they for?

For all women regardless of age. Because each woman is different and goes through various phases in life, we listened to the wishes of actual users and created the Venus Balls in three different weights. The Whoop-de-doo Venus Balls are the ideal solution for women who don't have the time, the place, or the resolve for regular and sufficiently long pelvic floor exercises. They're simply inserted into the vagina, and the rest takes place without the user actively participating or even being aware of it.

Developed in consultation with gynaecologists.

6 reasons *you'll fall* in love with the Whoop·de·doo Venus Balls

Minimalistic and affectionate design

Designed by a woman for women. Sensitive with an emphasis on functionality, ergonomics, and sustainability.

Functional and discreet

The Venus Balls activate the muscles of the pelvic floor with even the smallest movements. The inner balls are encased in silicone, which makes them completely silent and discreet.

100% medical-grade silicone

A premium material that's hypoallergenic, kind to the body, easy to clean, and entirely odourless.

Developed in collaboration with a gynaecologist

Thanks to her recommendations, we know the Venus Balls are the right size and beneficial to women's health.

Increased appetite and more powerful orgasm

Regular use awakens the pelvic floor and boosts libido, and intimate experiences take on a whole new dimension. You'll notice a difference after only four weeks.

Treatment and prevention of incontinence

Ideal for women after childbirth, following a gynaecological procedure, or during menopause.

Whoop-de-doo Venus Balls

Light Edition / 41 g

○ white ● red

Developed in consultation with sex coach and pelvic floor strengthening expert Julia Gaia Poupětová.

Vibrator

Why the Whoop-de-doo Vibrator?

The classic vibrator is erotic aid number one. The Vibrator by Whoop-de-doo is both classic and modern. Three inline motors guarantee decidedly intense vibrations along the entire length, while special technology ensures that the all-silicone Vibrator is wholly flexible despite the advanced electronics and mechanisms hidden inside. The Whoop-de-doo Vibrator is water resistant and very quiet with intuitive controls.

How does it work?

Women like things that are at once sophisticated and simple. In making the controls of the Vibrator as intuitive as possible, we took inspiration from the braille alphabet — the Vibrator is controlled by means of simple raised symbols in the silicone surface, which in no way disrupt the compactness of the design. This means the Vibrator can be used by touch alone. Charging is also very simple, and it's practical too.

Developed in consultation with an experienced tester of erotic aids.

Why won't you want to *put it down*?

Minimalistic and functional design

Perfected from design to manufacture. We have complete control over the entire process. Locally and sustainably in the Czech Republic.

3 vibration motors and 3 modes

Three motors deliver vibrations along the entire length in up to 105 combinations. The one you set last greets you when you turn the Vibrator on again.

Made for the female body

Thanks to unique technology, the Vibrator is flexible and very adaptive to the female body. We consulted its shape with a gynaecologist and its function with a professional tester.

Intense yet discreet

Even on the highest setting, the Vibrator is quiet and discreet. Up to 2 hours of use on a single charge.

Water resistant with a velvety surface

The electronics are safely embedded in medical-grade silicone with a velvety smooth surface. This makes the Vibrator water resistant, so you can use it in the shower or bath.

Intuitive controls

We took inspiration from the braille alphabet in designing the intuitive controls. You can easily play with the Vibrator in the dark or with your eyes closed.

Whoop·de·doo Vibrator

The Whoop·de·doo Vibrator is for all women who want to experience intimate moments with a partner to the fullest or enjoy their body and learn how to give it precisely what it needs.

- diameter 35 mm
- three robust motors positioned end-to-end
- three vibration modes
- adjustable vibration frequency and intensity in each mode
- flexible
- water resistant
- simple and intuitive controls
- white colour
- matte velvety surface
- protective SWISS+COTTON storage pouch
- hypoallergenic medical-grade silicone

Each box contains the Whoop·de·doo Vibrator, user guide in Czech and English, USB charging cable, protective SWISS+COTTON storage pouch, and numbered certificate of authenticity signed by the designer.

Developed in consultation with erotic aid tester Alena Dolečková.

Winner of the prestigious international RED DOT AWARD 2016 and the ADC CREATIVE AWARDS 2017.

Menstrual Cup

The Whoop-de-doo Menstrual Cup is a menstrual aid suitable for all women and girls who want a carefree and healthy period with no pain or worries about leakage.

What's a menstrual cup?

A menstrual cup is a sustainable alternative to single-use menstrual aids. Even with intensive use, the Whoop-de-doo Menstrual Cup will last up to 5 years without any change in quality whatsoever. In that time, you'll save approximately 1,200 single-use pads and tampons. It's made from medical-grade silicone, which is gentle on the body, doesn't dry the mucous membrane, and is 100% hygienic.

How does the Menstrual Cup work?

The cup is inserted into the vagina, where gentle suction holds it in place to catch menstrual blood for up to 12 hours. This means you have complete control over your period without any odours. Simply rinse it out and put it back in. The tip is finished in a soft ball that facilitates removal and is very comfortable to wear.

Why *choose* the Whoop·de·doo Menstrual Cup?

Minimalistic and functional design

Perfected to the very last detail, including the shape and the soft ball at the tip that facilitates removal and is very comfortable to wear.

Colour never fades or changes

Thanks to its red colour, the cup never changes even after years of intensive use. It will always look brand new.

Soft and firm at the same time

The Menstrual Cup is made from soft silicone, but the walls are reinforced to hold shape and keep the cup perfectly in place without leaking.

Velvety surface made from medical-grade silicone

Made from premium medical-grade silicone, which is gentle on the body and easy to take care of, the cup is velvety smooth yet durable at the same time.

Tested on us

During development, we tested the Menstrual Cup on ourselves, our friends, and our ambassadors. So we know it fits like a glove.

Manufactured locally and sustainably

In order to give you the very best, we manufacture the Menstrual Cup locally and sustainably in the Czech Republic and have complete control over the manufacturing process.

Whoop·de·doo Menstrual Cup

- tipped with a soft ball
- antistatic velvety matte surface
- red colour
- made from hypoallergenic medical-grade silicone
- tested in Prague at the Czech National Institute of Public Health

The Classic version is suitable for women after vaginal childbirth, for the first days of menstruation, and for days with a heavier menstrual flow.

- diameter: 45 mm
- volume: 28 ml

Whoop·de·doo Menstrual Cup Duo pack

Convenient packaging of both sizes of the Whoop·de·doo Menstrual Cup, which women can alternate as needed during their period.

- Light: diameter 42 mm, volume 21 ml
- Classic: diameter 45 mm, volume 28 ml
- tipped with a soft ball
- antistatic velvety matte surface
- red colour
- made from hypoallergenic medical-grade silicone
- tested in Prague at the Czech National Institute of Public Health

Each Whoop·de·doo Menstrual Cup is packed with a user guide in Czech and English, a Swiss-cotton storage pouch, and a certificate of authenticity.

Lube

Why Whoop-de-doo Lube?

The Whoop-de-doo Lubes will take your intimacy to the next level. They minimize soreness and irritation, make it easier to insert the Venus Balls, and significantly increase your chances of reaching orgasm.

Suitable for use with all of our products or all on their own. They have a silky consistency and neutral flavour. So yes, you can even taste them.

Why use a lubricant?

The Whoop-de-doo Lube equalizes vaginal dryness caused by hormonal changes, menopause, or extended intimate activities. And it also significantly increases the chances of reaching orgasm for both women and men.

Proper lubrication brings you greater comfort when inserting the Venus Balls, using the Vibrator, and during sex and minimizes any soreness or irritation.

Why *you'll* love the Whoop·de·doo lube?

Natural water-based composition

Made with water, all-natural and BIO ingredients, and no preservatives or dyes. Suitable for vegans. For silicone aids and your body.

Pleasant consistency

The silky consistency is very pleasant and nonsticky.

Delicate scent and neutral flavour

The rosemary or cotton scent evokes a sense of calm. The neutral flavour makes it great for mutual tasting.

Whoop·de·doo Lube

Water-based lubricating gel with the delicate scent of rosemary or cotton. Kind to the female body and all Whoop·de·doo intimate aids.

- volume 100 ml
- aluminium bottle with metal pump
- silky consistency
- neutral flavour
- designed and made in the Czech Republic

Whoop·de·doo lubricants will help you inserting the Venus Balls and greatly increase the chance of reaching orgasm.
